

~~Allies'~~ Silence on Jews

Abroad Hit by Mead

NEW YORK, Dec. 13.—The Jews of Europe "have been the victims of one of the most amazing conspiracies of history—a technique of silence," Senator Mead, Democrat, of New York said yesterday.

Senator Mead, speaking at an emergency conference of the Council of Organization of the American ORT (organization for rehabilitation through training) Federation, asserted:

"In the hour of their darkest distress, we of the United Nations have spoken to them not one word of cheer. Where we have specifically committed ourselves to other peoples, we have sought to answer the anguish of the Jews with glittering generalities, with pious platitudes."
