brief outline of charges
and waging of aggressive
war by I. G. Farben and its officials. There has
been general agreement on this approach by those
with whom it has been discussed.

It is not contemplated that the "Common Plan"
or "Conspiracy" charge will be dropped. However,
it is contemplated that the main burden of our case
will not be concentrated on such a charge. The
thinking at present is that the conspiracy charge
would be thrown in at the end of the whole indict-
ment after having also charged certain war crimes
and crimes against humanity.
