

MEMORANDUM FOR THE PRESIDENT

There is attached a draft of a reply to the letter of July 23 addressed to you by the American Jewish Congress, relating to the proposal of the World Jewish Congress and the American Jewish Congress for the evacuation of thousands of Jewish r refugees from Rumania.

As you will note, this letter states that the proposal is under active consideration by the State and Treasury Departments. No definite commitment with respect to the attitude which this Government will take on this proposal has been made in view of the fact that the State Department has not yet reached a decision on the matter.

On July 16 we advised the State Department that the Treasury was prepared to take the necessary action to implement the proposal. A definite program in this respect has been approved by the Treasury and is under consideration in the State Department.

For your information, on July 23 Dr. Wise wrote to me enclosing a copy of his letter to you and I replied that the Treasury was prepared to license the transaction.

Secretary of the Treasury.
