PARAPHRASE OF TELEGRAM SENT

FROM: Secretary of State, Washington.

TO: American Legation, Bern.

DATED: August 26, 1943, 8 p.m.

NUMBER: 2077

Your no. 4989, August 16.

One. No objection is envisaged by Treasury to the purchase from persons in Switzerland of French francs, provided the Legation or other responsible agency checks the sellers to insure that francs have been held by sellers since prior to fall of France or have since accrued to them through investments or dividends in France or through similar transactions which would not (repeat not) give the enemy benefit.

Two. Please notify Riegner, with regard to practicability of his plan as modified, that should the operation of the plan be imperilled by requirement that blocked account be established in the United States, the Treasury would be willing to have the account blocked under appropriate safeguards in Switzerland.
