INTER-OFFICE MEMORANDUM

22 March 1947.

SUBJECT : Transfer or Release of Personnel.

TO : Mr. Charles Lyon (359) and
Mr. Russell Thayer (286)

Copies to : Mr. Ervin (241)
Mr. DuBois (323) ✓
Mr. Raugust (361)
Captain Kruskall (181)

1. Reference is made to the memo from Miss Moore, Fiscal, Budget and Personnel Section, to Captain Kruskall, Subject: Strength Report, dated 21 March 1947. This memo indicates that the economic cases on 17 March had a strength of 132 as against authorized strength of 126, an overstrength of six. The overstrength is being carried by other divisions.
2. For some time we have been discouraged in attempts to hire some few additional personnel with excellent background because we were up to or over our T.O. strength. Several particularly good persons have been lost because OCCWC has not been able to "talk turkey" to them before they felt compelled to land another job. Under these circumstances I have asked for the termination of several more analysts or lawyers who were considerably below average in efficiency. Even though all of us have a natural reluctance to declare ourselves frankly in many cases where the person in question is not a bad morale factor and is "a good guy", I suggest that we owe it to our declared program to free the T.O. of a few more inefficient people.
3. The procedure, as I understand it, would be to inform Mr. Raugust, who then handles the matter with the Personnel Section.

D.A. SPRECHER.
